Valid Work Permit | Willing to Relocate

PROFESSIONAL SUMMARY

IT professional with hands-on experience in technical support, desktop troubleshooting, and systems administration across Windows and Linux environments. Skilled in Active Directory, Microsoft 365, networking, virtualization, and PowerShell automation, with strong customer service and problem-solving ability in enterprise IT settings.

TECHNICAL SKILLS

- OS & Directory Services:** Windows Server, Windows 10/11, Linux (Ubuntu, Rocky Linux), Active Directory, User & Group Management, Remote Desktop Support
- Networking & Infrastructure:** TCP/IP, DNS, DHCP, VLANs, Subnetting, Wi-Fi Troubleshooting, Structured Cabling (Copper & Fiber), Workstation Deployment & Imaging
- Microsoft & Enterprise Tools:** Microsoft 365, SharePoint, Outlook, Teams, OneDrive
- Automation, Monitoring & Virtualization:** PowerShell, Zabbix, HESK, VMware vSphere, Hyper-V, Proxmox VE

EXPERIENCE

Customer Relations Associate – Technical & Service Support | HGS (Client: Metrolinx GO Transit & UP Express) Dec 2025 – Present

- Provide front-line technical and service support to Metrolinx customers via phone and digital channels in a high-volume, SLA-driven environment, troubleshooting ticketing systems, PRESTO cards, mobile apps, and account access.
- Log, track, and resolve incidents using Microsoft Dynamics 365 (CRM) and SharePoint workflows, performing root-cause analysis and escalating complex cases to Tier 2 with detailed documentation.
- Support secure connectivity for customers using Cisco VPN and Zscaler, and manage service requests across BigCommerce, ByteMark, AgentX, and CCMS platforms.
- Maintain strict data privacy, security, and compliance standards while handling sensitive customer information.

Tier 1 Technical Support | Mugil.io Jul 2023 – Dec 2025

- Provided first-level technical support to end users via phone, email, and remote tools, resolving issues related to Windows, Microsoft Office, email, and user accounts.
- Assisted users with password resets, account lockouts, and network issues; monitored system alerts and escalated complex incidents to Tier 2 per established procedures.
- Logged and tracked incidents using ticketing systems, following knowledge base articles and SOPs to resolve common technical issues.
- Configured and supported desktops, laptops, and end-user devices, maintaining accurate documentation of incidents and resolutions.

PROJECTS

- Enterprise IT Infrastructure & Homelab:** Built a Proxmox VE homelab and multi-site Windows/Linux infrastructure with Active Directory, DNS/DHCP, VMware vSphere, Zabbix monitoring, Zimbra mail, and HESK ticketing with automated alert-to-ticket workflows.
- PowerShell Automation:** Built PowerShell scripts for AD user onboarding and GUI-based IT inventory tools with logging and CSV/PDF export, reducing manual provisioning time.
- Apache Guacamole Remote Access:** Deployed Apache Guacamole on Ubuntu for clientless, browser-based remote desktop access (RDP/SSH) secured with a reverse proxy.

CERTIFICATIONS

CompTIA Network+ (2025) • Azure Fundamentals (2025) • Windows Server 2022 Administration (2025) • Fortinet Certified Associate (2025) • Network Cabling Specialist – Copper & Fiber (2024) • Google IT Support Specialist (2021)

EDUCATION

Graduate Certificate, Applied Network Infrastructure & System Administration | Conestoga College 2024 – 2025
Bachelor of Computer Science | A.V.C College of Arts and Science 2019 – 2022
